

PentaFlow Animal Management System

for use with Lago X, Lago, Ami HTX and Ami HT

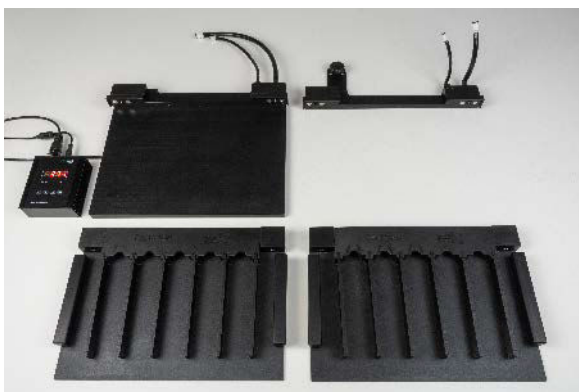

PentaFlow Animal Management System allows for easy, efficient 10 mouse management with increased efficiency and accurate animal positioning. Quickly swap trays for non-stop imaging!

Get Prepped While Imaging

A heated benchtop tray and manifold allow 5 mice to be positioned and prepped while a 2nd tray of 5 mice is being imaged.

PentaFlow System Includes

Two 5 mouse manifold trays and two docking stations for instrument and heated benchtop. For use with both Ami or Lago Imaging Systems.
